- Percentage: 59

Central Academy - 10th

📅 2016   📍 Jhunjhunu Rajasthan, India
- CGPA: 7.8

PROJECTS

CryptoTracker. App | 🔗 | 🌐

- Fetched real-time data from API endpoints, using React, React Router, Axios for frontend logic and API requests, Chart.Js for graphical representation of data.
- Additionally, I integrated Framer Motion for animations and transitions, and enabled users to add cryptocurrencies to a watchlist for tracking.
- Skills Used: React, React Router, Axios, Framer Motion, Chart JS, Local Storage, API.

MeShop. App | 🔗 | 🌐

- Users can browse, filter, add products to cart, and checkout with billing and shipping information.
- Utilized HTML, CSS, and JavaScript to create the website's frontend, incorporated API integration for product data retrieval, implemented ES6 features for efficient code, and added animations to enhance the user experience.
- Skills Used: HTML, CSS, JavaScript, API, ES6, Animation

Financily Finance Tracker | 🔗 | 🌐

- Financily is a user-friendly online app that effortlessly manages your daily expenses and income. Track your income, spending, and analyze financial pattern using charts with ease.
- Furthermore, I have seamlessly integrated Toastify into the app, enhancing user experience with informative notifications. This addition ensures user enjoy a smoother and more engaging interaction with the application.
- Skills Used: React, React Routers, Firebase, Google Authentication, Toastify
